

ADVANCED EXPRESSIVE ARTS THERAPY CERTIFICATE PROGRAM

Dream Weaver

**A Jungian
Approach to
Symbol and
Expressive
Arts Therapy**
Dec 12-13, 2015

**Kate Donohue Ph.D.,
REAT – International Faculty**

One of the Grandmothers of expressive arts, Kate Donohue is a licensed psychologist, registered expressive arts therapist, and teacher at California Institute of Integral Studies, Institute for Transpersonal Psychology, JFK University and the San Francisco C. J. Jung Institute. Kate is a cofounder of the International Expressive Arts Therapy Association.

A kinship naturally exists between expressive arts therapy and Jungian Psychology. Both are image-based approaches to understanding and healing the psyche and each emphasizes the symbolic process in its own unique fashion. This course weaves together the theory and practice of both these approaches into a Jungian-oriented expressive arts healing tapestry of images, emotions, understanding and transformation.

Combine with Introduction to Expressive Arts and Practicum Skills for a 15 credit hour Post Bach specialization in Expressive Arts in Education at the University of Winnipeg.
